Friends, this is the day when the verdict will be handed down
in the case of plaintiffs (Humans) v. GOD.

I am currently a legal reporter for
Human Rights Warning (HRW),
covering the State of Missouri Case No. MO-2023-JC-6827¹
--plaintiffs (Humans) v. GOD--
and I am reporting from outside the
Jefferson City, MO courthouse,
where the verdict will be announced
(and where it looks like a thunderstorm
could be blowing in any minute).

Initially, the plaintiffs (Humans)
had accused GOD of being indifferent;
and even callously Holding Back--
while the plaintiffs (Humans)
made a complete mess
of trying to cultivate and apply the wisdom and compassion
which has inspired so many religious, spiritual, and moral traditions.

It seems the plaintiffs' (Humans') were feeling, initially,
that they were "let down" (as in "We thought You would intervene....").

However, in discussions last night (at an undisclosed location),
new evidence was brought forward which clearly indicated
a new approach was needed by the plaintiffs (Humans).

Now... **If** my memory of last night's discussions
is as accurate as when it was happening,

GOD was in on the discussions
(though there were a significant number of views as to which Form GOD was);
and GOD was so loving and kind, and said gently,
"Why did we not use what Grace had already been bestowed?"

And then GOD appeared in the billions and billions of ways
the Source and Origin of Universal Love has appeared,
wherever and whenever there was need.

After this, a huddle was carried out by the plaintiffs' (Humans) lawyers;

and the following represents the plea bargain
which was negotiated late last night,
and which was presented to GOD (and a variety of GOD's advisors)
by the plaintiff's (Humans) lawyers early this morning.

The Plea Bargain

1. The plaintiffs (Humans) plead for leniency on all counts
of absolute indifference, and blatant hostility,
towards even the basics of moral conduct--
including, but not limited to, charges of violence, greed, corruption, and overindulgence;

and will practice wisdom and loving compassion
--beginning August 4, 2023, and throughout the next Era--
as both a penance (*with hope of reconciliation*),
and by preference, because they were so much in the dark before,
and they are grateful to be alive, now.

2. The plaintiffs (Humans) plead for leniency on all counts
of sickeningly disgusting disrespect and hate crimes--
directed towards other human beings with hopes and dreams;
towards the integrity of Earth's Ecosystems, causing the extinction of countless living things--
and in general relating to a long list of other "social and environmental externalities",
which in a thousand pages cannot be quantified;

and will practice wisdom and loving compassion
towards human beings and living beings of every kind,
and nurture, support, and sustain
Sustainable BioDiversity, and Earth Ecosystems Integrity
--beginning August 4, 2023, and throughout the next Era--

as both a penance (*with hope of reconciliation*),
and by preference, because they were so much in the dark before,
and they are grateful to be alive, now.

3. The plaintiffs (Humans) humbly and respectfully request
sufficient resources to educate spiritual teachers and permaculture instructors;

and will provide all the labor, gladly,
--beginning August 4, 2023, and throughout the next Era--
to have more and more centuries in the company of

the billions and billions of ways
the Source and Origin of Universal Love has appeared,
wherever and whenever there was need.

Notes

1. The case was initially filed as a civil suit by the plaintiff's (Human's) lead attorney Daniel Webster in the Jefferson City, MO courthouse, on February 29, 2023. [Note: civil suits are most often non-criminal cases in which a "Plaintiff" seeks to recover money damages or other relief from a "Defendant".]
