

To my dear Divine Jour-ne-yers

by Stefan Pasti

(1 page; January 27, 2024)

[from the Universal Spirit of Love
in all the religious, spiritual, and moral traditions
which have inspired me]

I'm calling on Divine Intervention
to appear in as many forms as possible
in All our societies and cultures;
and as the ultimate arbitrator
provide a forum for everyone to have a voice
about what is going on;

and see, from that input,
what God favors as good for the greater whole
and
what God ****has never supported**** *throughout all eternity*

And then we will have more than security
--we will have serenity--
because of the trust among us about what God (Love)
has to do with our present journey
to once again unite with all the Love in the Universe

["From whence have they come,"
sang a shepherd in the village
"and where will they be to-mor-row?"
"And please, if you will my dear Divine jour-ne-yers
sing that song about 'The Villages in Our Hearts'"]
